To Tillex customers

Declaration regarding the manufacturing at Tillex

Tillex hereby declares that the manufacturing in the factory complies with all applicable Danish legislation and that the company fulfils all common ethical principles:

- Tillex will always comply with the current environmental legislation.
- Tillex will always comply with the current labour protection legislation.
- Tillex' production plant will always comply with the current safety regulation. Employees are instructed in its correct and safe use.
- The employees will constantly monitor the production to ascertain that the products live up to the specifications and meet the quality requirements of Tillex.
- Tillex continuously works to decrease its use and waste of materials and to purchase raw materials with a "green profile" and a high content of recycled materials.
- Tillex does not use child labour and will not purchase goods of any kind from suppliers that do.
- Tillex only sources raw materials from well-reputed suppliers, primarily in the EU.

Tillex has decided not to obtain certifications according to e.g. ISO 9001, ISO 14001 or other standards as we don't expect this to bring sufficient value to the company taking its size and nature into consideration.

Questions regarding the above are most welcome and can be addressed to the undersigned.

Kind regards,

Kim Tillegreen
Manufacturer
